PROFILE

Information Technology undergraduate specializing in Data Science with a GPA of 3.24, with hands on experience in Python, Pandas, NumPy, SQL, Mongo DB and exploratory data analysis. Skilled in applying machine learning fundamentals and evaluation metrics to extract meaningful insights from data. Seeking an internship to apply academic knowledge to real industry problems while further developing technical and analytical skills.

EDUCATION

SriLanka Institute of Information Technology 2024 – Present
BSc (Hons) in IT Specialized in Data Science

St. Josephs Girls' School, Nugegoda 2014 – 2022
GCE Advanced Level - Physical Stream

PROJECTS

AI-Powered Printing Management System

A full stack AI-powered printing management system for real world business operations. The system includes order management, scheduling, inventory, billing, and notifications, enhanced with an ML-based delay risk prediction model

Food Edibility Prediction System

This project aims to predict mushroom edibility by performing data cleaning, preprocessing, and exploratory data analysis to prepare the dataset for building a reliable machine learning model.

Web based Healthcare System

A digital platform that connects patients, doctors, and dietitians to provide personalized diet and workout plans for improved wellness and healthcare efficiency.

SKILLS

Microsoft Office Package	Java
Python	SQL
Mongo DB	Git

LANGUAGES

English	Sinhala
---------	---------

CERTIFICATES

- Python for Beginners
- Python Programming

EXTRACURRICULAR ACTIVITIES

Senior Prefect	2021 – 2022
Junior Prefect	2018 – 2019
Member of School Western Band	2017 – 2019
Member of School Astronomy Club	
Member of Student Parliament
